- Clinical Translation of Xenotransplantation
- The Challenges of Infectious Complications of Organ Transplantation

Clinical tracks for liver, small intestines, kidney and pancreas transplantation; heart and lung transplantation; stem cell transplantation; and social work will allow practitioners to focus on current issues and patient management strategies within their area of specialization.

Designed for a broad cross-section of healthcare professionals, this conference encompasses liver and intestine, kidney and pancreas, heart and VAD, lung, and bone marrow stem cell transplantation, and they provide information relevant to multiple practice specialties, including:

- Physicians and surgeons
- Nurses
- Nurse practitioners
- Physician assistants
- Case managers
- Social workers
- Benefit managers
- Medical directors
- Managed care professionals
- Payors
- Reinsurance managers
- Utilization review staff
- Transplant coordinators
- Medical management staff

About The Henry Ford

TRANSPLANT INSTITUTE.

The Henry Ford Transplant Institute is one of the largest and most respected multi-organ transplant centers in the United States.

As Michigan's most comprehensive transplant program, the Henry Ford Transplant Institute offers transplantation of the liver, kidney, pancreas, intestine and multivisceral organs, heart, lung and bone marrow stem cell.

The Institute is always on the forefront of transplantation science, performing the most advanced minimally invasive procedures and living organ donation. Our commitment to quality leads to outcomes that meet or exceed expected survival rates where we use the most effective clinical strategies to increase transplant rates while maintaining superior patient outcomes.

ORGAN TRANSPLANTATION OUTREACH CLINICS.

As part of our commitment to deliver integrated care, the Henry Ford Transplant Institute now provides access to our surgeons and clinicians at outreach organ transplantation clinics throughout Michigan. Patients receive expert pre- and post-operative care at convenient locations, close to home.

CONNECT WITH US.

Communication and information sharing is key to any great relationship. At the Henry Ford Transplant Institute, we are committed to developing a strong relationship with our referring physician partners. We are pleased to offer our smartphone and iPad app developed exclusively for referring physicians and their staff.

The Henry Ford Transplant app is available for iPhones, iPads and Android platform devices. You can download the app via the Apple App Store or Google Play at no charge. Simply search "Henry Ford Transplant Institute" and download this convenient tool today.
