This program is geared towards physicians, fellows, residents, pathologists, physician assistants, and nurse practitioners in the field of hematology/oncology.

EDUCATIONAL OBJECTIVES:

Upon completion of this program, the participant will:

- Recognize relative biomarkers in the treatment and progression of cancer.
- Implement new novel therapies being used in treating oncologic cancers.
- Implement state of the art treatment approaches for treating cancer.
- Utilize the latest news from the ASCO Annual Meeting.

STATEMENT OF NEED:

Oncology is a continuously evolving area of medicine and new developments provide tools for the physicians, scientists, and healthcare professionals to help with diagnosis and treatment of cancer. Continuing education is essential to study and evaluate new findings, to inform practitioners of new clinical applications, and to improve patient care.
