Purpose and Targeted Audience:
The conference will focus on one or more clinical issues, the treatment decisions and how those decisions relate to patient outcomes. The attendee not only learns the latest techniques and tools to more effectively and efficiently diagnose and treat a disease, but also techniques and tools that may be either inefficient or result in grave danger to the patient. By presenting the research-based knowledge in conjunction with clinical scenarios, the participants will be able to apply the new knowledge into their clinical practices.

Statement of Need:
Oncology is a continuously evolving area of medicine and new developments provide tools for the physicians, scientists and healthcare professionals to help in the diagnosis and treatment of cancer. Continuing education is essential to study and evaluate new findings, to inform practitioners of new clinical applications and to improve patient care.

Accreditation:
“The Wayne State University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Wayne State University School of Medicine designates this live activity for a maximum of 2.25 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.”

Target Audience:
This program is geared towards physicians, fellows, residents, pathologists, physician assistants, and nurse practitioners in the field of oncology.
#1: Differentiated Thyroid Cancer
4 - 4:30 p.m.

Presented by: Julie Samantray, M.D., MPH

Objectives:
• Provide overview of different types of thyroid cancer
• Focus on well differentiated thyroid cancer including preoperative risk stratification, post-operative management and monitoring, indication of iodine therapy in the adjuvant setting and in relapse metastatic setting.

#2: Differentiated Thyroid Cancer
4:30 - 5 p.m.

Presented by: Ho-Sheng Lin, M.D., FACS

Objective:
• Discuss surgical management of DTC at initial diagnosis and in case of relapse.

#3: Management Update of Iodine Refractory DTC
5 - 5:30 p.m.

Presented by: Ammar Sukari, M.D.

Objectives:
• Define iodine refractory DTC
• Discuss the role of TKI in metastatic DTC and in anaplastic thyroid cancer

#4: Panel Case Discussion
5:30 - 6 p.m.

Moderator: Ammar Sukari, M.D.
Panelists: Julie Samantray, M.D., MHP and Ho-Sheng Lin, M.D., FACS
