2:15– 3:00	Genitourinary Cancers	Ulka Vaishampayan, MD <i>University of Michigan</i>
<b>3:00</b>	<b>Course Adjourns</b>	

The American Society of Clinical Oncology (ASCO) Annual Meeting that is respected as the preeminent venue to learn about the most cutting-edge scientific research in cancer today. Faculty from Michigan's comprehensive cancer centers will bring the most significant abstracts presented at ASCO's Annual Meeting to attendees in a concise, yet comprehensive, format. This symposium is needed to disseminate current information to practicing hematologists and oncologists and improve the overall standard of care and knowledge base. Participants will

apply advances and scientific and translational research in the care of their patients, list and assimilate the difficulties in interpreting data presented at scientific meetings and enhance physician's ability to analyze speakers' conclusions at medical meetings.

*Changes in speakers, titles, and/or times may occur.*
